## LANDING MAT

**The alternative to  
concrete runways**

# TRACKWAY<sup>®</sup> SOLUTIONS

A modular aluminum panel system that is the perfect alternative solution to concrete or asphalt runways. This innovative product allows expeditionary forces to build runways, taxiways and parking areas in scenarios where there is no time, requirement or ability to install a permanent airfield. Designed to any size requirement, the Aircraft Landing Mat can be used for as little as a day or as a permanent installation and can be deployed quickly for immediate use. Reusable for multi-operations, the system is available in a variety of Trackway<sup>®</sup> panel profiles, each suited to a group of aircraft and requirement, ensuring maximum usability.

## CAPABILITIES & SPECIFICATION

- Provides temporary or semi-permanent matting;
- Ensures ground / environmental protection;
- Prevents Foreign Object Damage (FOD);
- Alleviate brown out by suppressing dust and airborne debris;
- Facilitates multiple landings at the same location;
- Easily and safely deployed and recovered.

- Aluminum panels, joined together to any size requirement, and anchored to the ground;
- Designed to be constantly reused for multi-purpose operations;
- Withstands ambient temperatures ranging from -40°F to +140°F;
- Anodized or painted as standard dependent on the panel profile;
- Easily cleaned, has a long operational life and is 100% recyclable;
- Foot protection is required for walking on all Trackway<sup>®</sup> aluminum products.

# PSA FLAT TOP N TRACKWAY®

PSA Flat Top N Trackway®'s innovative design allows two panels to be stacked into a combined state of 1.1in; allowing for an increased square footage, due to the unique nesting function. Transportable on 463L pallets, in ISO Containers, or the Multi Role Packaging solution, the panel is supplied anodized for durability and protection from corrosion; and an anti-skid finish ensures the surface is of the highest traction for asset and personnel safety. Suitable for landing, take-off, servicing and maintenance, its flat surface and structurally sound yet flexible foundation makes it the ideal solution for aircraft parking zones.

# PSA TRACKWAY®

PSA Trackway® is supplied painted for durability and protection from corrosion. Originally developed for the UK Armed Forces over 50 years ago, the original landing mat panel can be transported by land, sea or air in either stillages or 463L pallets. Most suited for landing and take-off for fixed and rotary wing aircraft, the PSA Trackway® panel is lightweight, versatile and can be deployed with ease.

# S46H TRACKWAY®

The S46 Trackway® solution is a robust, aluminum panel which provides aircraft with a safe area for landing, take-off, parking and taxiing. More suited to long-term operations, S46 Trackway® is easily and rapidly deployed with minimal manpower. Its multi-purpose use means it is the ideal solution for vehicle access ways. Palletized in kit form, and delivered to your chosen site, the panels are supplied with an anti-skid finish.
